

DELAWARE RIVER AND BAY
WATER QUALITY ASSESSMENT
2000 305(b) REPORT

This report was prepared by the Delaware River Basin Commission -- Carol R. Collier, Executive Director; Dr. Jeffrey P. Featherstone, Deputy Executive Director; Dr. Thomas J. Fikslin, Modeling and Monitoring Branch Head. Robert C. Kausch, Environmental Scientist, was the principal author.

August 2000

CONTENTS

INTRODUCTION	1
PART 1 SUMMARY / OVERVIEW	
Support of Uses	2
Changes Since the 1998 305(b) Report	4
Cause and Source of Impairments.....	5
Programs to Correct Impairments	7
General Water Quality Trends.....	7
Monitoring / Special Concerns / Initiatives	8
PART 2 BACKGROUND	
Purpose.....	10
Study Area Description.....	10
Water Uses and Standards.....	10
Water Pollution Control Program	10
PART 3 SURFACE WATER ASSESSMENT	
Surface Water Monitoring Program	12
Changes in Assessment Methodology	12
Non-Tidal Delaware River (Zone 1) Assessment	14
Tidal Delaware River, Estuary/Bay (Zones 2-6) Assessment.....	16
Wetlands.....	18
Public Health and Aquatic Life Concerns	19
Fish/Shellfish Populations.....	19
PART 4 GROUNDWATER ASSESSMENT No changes have occurred in this section [see 1996 305(b) report].
